EXPERIENCE

Technology Intern | CA-Copilot March 2026 – Present

- Architecting and deploying AI/ML models and Natural Language Processing (NLP) automation modules to streamline financial compliance auditing.
- Designing robust backend REST APIs and optimizing SQL database structures to power automated IFRS 17 compliance workflows.

Frontend Intern | Young Thames July 2025 – Sept 2025

- Built and engineered highly responsive user interfaces using React.js and Tailwind CSS, improving overall cross-device UI rendering.
- Integrated microservice REST APIs for complex machine learning analytics dashboards, reducing load times and enhancing user data utility.

ML & Cloud Intern | IBM June 2025 – Aug 2025

- Engineered scalable AI workflows and automated ML pipelines on IBM Cloud using WatsonX.ai and Watson Studio.
- Designed end-to-end data pipelines incorporating basic ETL practices, leveraging Cloud Object Storage for optimized high-throughput querying.

AI-ML Virtual Intern | Google for Developers (EduSkills) Summer 2025

- Completed an intensive 10-week technical AI/ML track supported by AICTE, deploying advanced ML classification algorithms on real-world datasets.

EDUCATION

Amity University Madhya Pradesh | B.Tech in Computer Science & Engineering (Data Science) |

CGPA: 8.56 2023 – Present

TECHNICAL SKILLS

- Programming Languages:** Python, SQL, C++
- AI/ML & Data Science:** Scikit-learn, NLP, Computer Vision (OpenCV), CNN, Generative AI, LLMs
- Data Engineering & Cloud:** ETL (Extract, Transform, Load) pipelines, Azure Data Factory, Google Cloud Platform (GCP), IBM WatsonX.ai
- Frontend Development:** React.js, Tailwind CSS, HTML5, CSS3
- Backend & Databases:** Node.js, REST APIs, MySQL, MongoDB, Firebase
- DevOps & Tools:** Git, GitHub, Docker, Kubernetes, Postman

PROJECTS

FixIt: AI-Based Civic Issue Detection | Python, CNN, OpenCV, React.js, REST APIs

- Developed a computer vision prototype detecting urban infrastructure faults (potholes/garbage) using Convolutional Neural Networks (CNNs).
- Integrated a live notification engine via REST APIs to report real-time geographical data directly to monitoring dashboards.

Demographic Data Insights Dashboard | WatsonX.ai, Azure Data Factory, IBM Cloud, ETL

- Built an enterprise-grade data intelligence dashboard orchestrating automated insight discovery pipelines on cloud architecture.
- Utilized Azure Data Factory to construct automated ETL pipelines, transforming raw demographic data datasets into analytics-ready tables.

Instagram Chat Emotion Analyzer | Python, NLP, Scikit-learn, NLTK

- Designed an NLP sentiment analysis pipeline executing text preprocessing, Lemmatization, and TF-IDF vectorization.
- Built predictive models to parse chat text data, categorizing psychological and behavioral emotional trends.

CERTIFICATIONS

- GenAI & Cloud:** OCI Certified GenAI Professional (Oracle), IBM RAG with LangChain, AWS GenAI Foundations, IBM Cloud Solutions.
