## PROFESSIONAL SUMMARY

Final-year B.Tech Computer Science (Data Science) student with hands-on experience across backend development, cloud/ML pipelines, and frontend engineering gained through three internships. Proficient in Python, SQL, and React.js, with working exposure to cloud ML platforms including IBM WatsonX.ai and Azure Data Factory. Seeking a full-time software engineering role starting after graduation (2027).

## EDUCATION

**B.Tech, Computer Science & Engineering (Data Science)** 2023 – 2027 (Expected)

Amity University Madhya Pradesh | CGPA: 8.56 / 10

Class XII (MPBSE), 2023 — 84.8% | Class X (MPBSE), 2021 — 91%

## EXPERIENCE

**Technology Intern** / *CA-Copilot (Remote, Part-time)* Mar 2026 – Present

- Build backend APIs and ETL pipelines automating financial-compliance workflows, including IFRS 17 reporting.
- Design and maintain SQL database schemas supporting automated document-processing systems.

**Frontend Development Intern** / *Young Thames* Jul 2025 – Sep 2025

- Built responsive React.js and Tailwind CSS interfaces integrated with REST APIs to power ML-analytics dashboards.
- Improved dashboard usability by streamlining component structure and API call patterns.

**ML & Cloud Intern** / *IBM* Jun 2025

- Engineered automated ML pipelines on IBM Cloud using WatsonX.ai workflows.
- Built a demographic data analysis project using IBM Cloud Object Storage for data ingestion and visualization.

## PROJECTS

**FixIt — AI-Based Civic Issue Detection** / *Python, OpenCV, REST API*

- Built a computer-vision system to detect potholes and garbage from user-submitted images.
- Integrated REST APIs to automate civic-issue reporting and monitoring workflows.

**Instagram Chat Emotion Analyzer** / *Python, NLP, TF-IDF*

- Built a sentiment-analysis pipeline using TF-IDF and lemmatization to classify emotional tone in chat messages.
- Generated behavioral insights from unstructured conversation data.

**Demographic Data Insights Dashboard** / *IBM Watson Studio, Cloud Object Storage*

- Built a cloud-based analytics dashboard automating demographic data analysis and visualization.

## TECHNICAL SKILLS

- Languages:** Python, SQL, C++
- Web Development:** HTML5, CSS, React.js, Tailwind CSS, REST APIs
- Databases:** MySQL, Firebase
- Cloud & Tools:** IBM WatsonX.ai, Azure Data Factory, Git, GitHub, Postman
- Relevant Coursework:** Object-Oriented Programming, DBMS, Data Structures & Algorithms

## CERTIFICATIONS

- OCI Certified Generative AI Professional — Oracle
- AWS Generative AI Foundations — Amazon Web Services
- IBM RAG and Cloud Solutions — IBM

## ACHIEVEMENTS & LEADERSHIP

- 3rd Place, National-Level Hackathon — built and presented an AI-driven software prototype under time constraints.
- Regular problem-solver on LeetCode and GeeksforGeeks, focused on Data Structures & Algorithms.
- Coordinated student volunteers and sponsorship logistics for university technical fests at Amity University.
- Active participant in peer-to-peer coding groups promoting collaborative learning.
